Yale French Studies, Number 137/138 Thomas C. Connolly 2021-02-23 Number 137/138 in Yale French Studies, this collection of essays examines poetry in French by authors from across the Maghreb. Although in recent years Maghrebi literature written in French has enjoyed increased critical attention, less attention has been paid specifically to the genre of poetry. The sixteen essays collected in this special issue of Yale French Studies show how the poem provides a uniquely privileged perspective from which to examine questions relating to aesthetics, linguistics, philosophy, history, autobiography, gender, the visual arts, colonial and postcolonial society and politics, and issues relating to the post-Arab Spring.

Speech and Sociability at French Urban Marketplaces Jacqueline Lindenfeld 1990-01-01 This study is both particularistic and generalizing. At one level it can be seen as an investigation of French urban marketplaces as systems of communication, with a microscopic examination of verbal interaction and sociability patterns in a specific cultural setting. At another level it constitutes an attempt to show some relationships between the ethnography of communication, urban anthropology and symbolic interactionism: all three lines of inquiry converge here to highlight the social and symbolic dimensions of traditional street markets in modern urban France, with primary focus on the role of speech in sociability. A major source of inspiration is interactional sociolinguistics which considers language as an activity performed by social actors for specific purposes.

Paris Under Construction Jacob Paskins 2015-12-07 During the 1960s, building sites in Paris became spaces that expressed preoccupations about urban transformation, labour immigration and national identity. As new buildings and infrastructure changed the city, building sites revealed the substandard living and working conditions of migrant construction workers in France. Moreover, construction was the touchstone in debates about the dangers of urban life, and triggered action in communities whose districts faced demolition. Paris Under Construction explores the social, political and cultural responses to construction work and urban transformation in the Paris metropolitan region during the 1960s. This examination of a decade of intensive building work considers the ways in which the experience of construction was mediated, produced and reproduced through a range of complex and sometimes contradictory representations. The building sites that produced the new Paris are no longer visible, and were perhaps never intended to be seen, yet different groups closely observed and recorded construction, giving it meanings that went beyond specific building activities. The research draws extensively on French newspaper, television and radio archives, and delves into rarely examined trade union material. Paris Under Construction gives the voice to the witnesses of and participants in urban transformation who are usually excluded from architectural and urban history.

Étude des tâches dans les manuels Echo et Agenda Claire Gauthier 2014-04-08 Lors de la création de matériel pédagogique, les auteurs organisent les contenus selon les objectifs repertoriés dans les échelles de compétence du Cadre Européen Commun de Référence. De plus, ils mettent en oeuvre une approche actionnelle ou la réalisation de tâches est au coeur de l'apprentissage. En effet, de nombreux manuels de Français Langues Étrangères s'appuient sur cet apprentissage fondé sur les tâches. C'est le cas notamment des manuels que nous avons choisis pour notre analyse, Echo A1 et Agenda 1. Le caractère récent de ces manuels apporte des résultats neufs.

Nous allons étudier et comparer les tâches proposées par ces manuels. Ces deux manuels, dits généralistes sont produits dans un pays francophone, par des auteurs francophones pour des publics de toutes nationalités. Créées par des éditeurs sur leur propre initiative et n'ayant d'autre sanction que celle du marché, les méthodes de FLE produites en France sont désormais entièrement dépendantes des attentes des publics d'apprenants. Au travers de cette recherche, il nous semble pertinent de nous pencher sur les différents types de tâches et leurs rôles dans les manuels.

Du darfst nicht alles glauben, was du denkst Kurt Krömer 2002-03-10 «Ich war dreißig Jahre depressiv. Ich muss damit leben. Und ich habe keinen Bock, das zu verheimlichen.» Kurt Krömer ist einer der beliebtesten und bekanntesten Komiker des Landes. In seiner Sendung «Chez Krömer» sprach er offen über seine schwere Depression und seine Zeit in der Tagesklinik und hat damit Millionen von Menschen erreicht. Alexander Bojcan ist 47 Jahre alt, trockener Alkoholiker, alleinerziehender Vater und er war jahrelang depressiv. Auf der Bühne und im Fernsehen spielt er Kurt Krömer. Er will sich nicht länger verstecken. »Du darfst nicht alles glauben, was Du denkst« ist der schonungslos offene und gleichzeitig lustige Lebensbericht eines Künstlers, von dem die Öffentlichkeit bisher nicht viel Privates wusste. Alexander Bojcan bricht ein Tabu und das tut er nicht um des Tabubrechens willen, sondern um Menschen zu helfen, die unter Depressionen leiden oder eine ähnliche jahrelange Ärzteodyssee hinter sich haben wie er selbst. Dieses Buch wirkt für einen offenen Umgang mit psychischen Krankheiten und ist gleichzeitig kein Leidensbericht, sondern eine komische und extrem lebenswerte Liebeserklärung an das Leben und die Kunst. Ein großes, ein großartiges Buch. »Und ab dafür«, würde Kurt Krömer sagen.

Hex Thomas Olde Heuvelt 2017-10-16 Black Spring ist ein beschauliches Städtchen im idyllischen Hudson Valley. Hier gibt es Wälder, hier gibt es Natur - und hier gibt es Katherine, eine dreihundert Jahre alte Hexe, die den Bewohnern von Black Spring gelegentlich einen Kleinen Schrecken einjagt. Dass niemand je von Katherine erfahren darf, das ist dem Stadtrat von Black Spring schon lange klar, deshalb gelten hier strenge Regeln: kein Internet, kein Besuch von außerhalb oder Katherine's Fluch wird sie alle treffen. Als die Teenager des Ortes jedoch eines Tages genug von den ständigen Einschränkungen haben und ein Video der Hexe posten, bricht in Black Spring im wahrsten Sinne des Wortes die Hölle los ...

Le bon usage québécois. Étude sociolinguistique sur la norme grammaticale du français parlé au Québec Davy Bigot 2021-02-10T00:00:00-05:00 Du concept général de norme à celui de norme linguistique, du français parlé en Nouvelle-France aux grands enjeux linguistiques de la Révolution tranquille, de la qualité de la langue au français des médias, voilà quelques-unes des problématiques abordées à travers cet ouvrage divisé en trois chapitres centrés sur la norme du français québécois. Mais au-delà de l'exercice de synthèse, je propose avant tout de répondre aux questions suivantes : quels sont les locuteurs qui détiennent le bon usage québécois ? La norme du français parlé au Québec est-elle différente de celle des autres pays de la francophonie ? Et enfin, quels sont les grands traits linguistiques qui caractérisent le français québécois soutenu ? Pour ce faire, je présente une analyse sociolinguistique de 18 variables grammaticales réalisée à partir d'un corpus de français québécois soutenu, le corpus Le point. Cette étude offre ainsi un premier portrait du français socialement valorisé par les élites sociales et culturelles québécoises.

Gender, Politeness and Pragmatic Particles in French Kate Beeching 2002-01-01 This study aims to investigate politeness in women's and men's speech, with a particular focus on the use of c'est-à-dire, enfin, hein and quoi in contemporary spoken French. Politeness is defined as going beyond the notion of the face-threatening act, englobing both everyday ideas of politeness and the creation of sociability in face-to-face interaction. The pragmatic particles studied are demonstrated to serve both psycholinguistic and sociolinguistic purposes: they lubricate reformulation and contribute to both sociability and social indexation. The study, which combines qualitative and quantitative analysis, is based on a corpus of spontaneous spoken French, comprising 155,000 words, 95 interviews and subjects ranging in age from 7 to 88 years. The sample contains speakers from a broader range of educational backgrounds than is often the case: a butcher, a video-salesman and a toiletteur canin rub shoulders with counter assistants, teachers and doctors.

Dressing Modern Frenchwomen Mary Lynn Stewart 2008-03-31 At a glance, high fashion and feminism seem unlikely partners. Between the First and Second World Wars, however, these forces combined femininity and modernity to create the new, modern French woman. In this engaging study, Mary Lynn Stewart reveals the fashion industry as an integral part of women's transition into modernity. Analyzing what female columnists in fashion magazines and popular women novelists wrote about the "new silhouette," Stewart shows how bourgeois women feminized the more severe, masculine images that elite designers promoted to create a hybrid form of modern that both emancipated women and celebrated their femininity. She delves into the intricacies of marketing the new clothes and the new image to middle-class women and examines the nuts and bolts of a changing industry including textile production, relationships between suppliers and department stores, and privacy and intellectual property issues surrounding ready-to-wear couture designs. Dressing Modern Frenchwomen draws from thousands of magazine covers, advertisements, fashion columns, and features to uncover and untangle the fascinating relationships among the fashion industry, the development of modern marketing techniques, and the evolution of the modern woman as active, mobile, and liberated.

Global Capitalism, Culture, and Ethics Richard A. Spinello 2022-04-07 This book seeks to deepen the reader's understanding of the complex ethical and social disputes that corporations and managers face in an increasingly globalized world. It reviews the history and nature of global capitalism along with the role of the multinational within the global economy. Special attention is paid to emerging and frontier markets where there is economic potential but also major challenges due to institutional voids. Globalization is a constantly evolving field. In addition to exploring basic economic concepts and ethical frameworks, this second edition takes into account many new developments across different industries, ranging from "Big Tech" to "Big Pharma." It reviews some of the controversies that have affected those industries including bribery, censorship, the politics of computer networking, sweatshops, divestment, and the intensifying crisis of climate change. The book now includes short case studies to help spur creative reflection. Also, the revised content is highlighted in two new chapters "Bribery and Corruption" and "Emerging and Frontier Markets." The book is ideal for use as a textbook on globalization, and specifically for courses that want to introduce a social responsibility or ethical component at both undergraduate and postgraduate levels.

French through Corpora Virginie André 2014-06-02 This book offers a series of studies that come together in their concern for furthering an understanding of the French language, of its uses, its forms, its variation, and its acquisition. Other than contributing to a general understanding of French, this book also addresses the use of corpora for the study of language and the links between tools, methods, analyses and applications. What data are used, and how? What are the underlying theoretical and/or methodological considerations? How have these changed our way of formulating linguistic descriptions? What are the implications for descriptive accounts of French today? What are the applications of corpus studies? These questions (and many more) are addressed here in a series of scholarly contributions grouped into four broad areas: diachrony, syntax, sociolinguistics, and the learning

and teaching of French. The book provides an up-to-date and challenging account of French for researchers in French linguistics. It will also be suitable for use on post-graduate and some undergraduate courses, providing useful information not only for students and teachers of French, but also for language and linguistics students in general. Many of the issues addressed are not specific to the French language and can be accounted for within a more general area of reflection within linguistics on changing relations between data, theory and methods.
