## Bitcoin: A Peer-to-Peer Electronic Cash System

payments to be sent directly from one party to another without going through a financial institution. Digital signatures provide part of the solution, but the main benefits are lost if a trusted third party is still required to prevent double-spending. We propose a solution to the double-spending problem using a peer-to-peer network. The network timestamps transactions by ...

## *Central bank digital currencies - Bank for International Settlements*

can be used by the public, for day-to-day payments rather than CBDCs restricted to wholesale, financial market payments). 1 Some commentators and academics have referred to "synthetic CBDCs", which are the equivalent of narrow-bank money and not a direct claim on a central bank. This is not a

CBDC by definition and lacks the neutrality and ...

Micro, Small and Medium Enterprises

Introduction MSMEs in India have evolved considerably since independence. From being referred to merely as the Small Scale Industries (SSI) sector in 1960s and 70s, the MSME sector has progressed in scale and in scope of business activities over the years. In India, the MSME consists of both 'traditional' and 'modern' small industries.
